## Profile

I'm looking for an internship that can provide the same experience that I get when I work on my computer science projects with my friends. I absolutely LOVE solving problems, helping my friends, and learning from them.

## Education

- BS Computer Science (2018-2022), James Madison University, Harrisonburg, VA
- Cumulative GPA: 3.88
- Major GPA: 3.78
- Computer Science courses taken:
  - CS 101: Introduction to Computer Science (Python)
  - CS 149: Introduction to Programming (Java)
  - CS 159: Advanced Programming (Java)
  - CS 227: Discrete Structures
  - CS 240: Data Structures and Algorithms (Java)
  - CS 261: Computer Systems ( C )
  - CS 345: Software Engineering (Java)

## Personal project:

- My friend Max McDaniel and I have been working on a simple video game for 2 months. We taught ourselves C++ and how to use Visual Studio with Github. The game is not finished, but we will have a deliverable product by the end of August. Here is a link to our work in progress with all of its branches: <https://github.com/alextranjmu/MaxAndAlexGame/tree/master/Engine>

## Technical Skills:

- Java
- C
- Python
- HTML
- C++
- Agile

## Work experience:

- Arby's crew member (Summer 2017 & 2018): Taking orders, preparing food, and cleaning
